## RISK MANAGEMENT SERVICES

## RISK MANAGEMENT SERVICES

The Alan Boswell Group has been helping protect the assets and interests of our clients for over 25 years and during that time, we have established ourselves as one of the leading Independent Insurance Brokers in the UK.

We understand the health & safety, fire, security & business continuity risks that our clients face everyday. We also understand that effective management of these risks is critical to the success of your business.

Alan Boswell Risk Services offers straightforward information, advice and support to enable you to get on with running your business.

We help you take care of health & safety.

Did you know...

- If you employ 5 or more people you are required by law to have a written health and safety policy and fire risk assessment
- 80% of companies who suffer a major disaster and who do not have any form of continuity or contingency planning, go into liquidation within 18 months. A further 10% suffer the same fate within 5 years
- The Home Office estimates that nearly one in five businesses suffer a major disruption on average every five years

Having taken time to understand your business, we tailor our services into a bespoke package that is right for you. We then agree a timescale for implementation that suits your working practices.

We offer practical advice on health & safety, fire safety, security, business continuity & rebuilding costs.

We will...

- Review your existing documents
- Review your existing procedures
- Recommend procedural improvement
- Write new Health & Safety documents for you
- Provide ongoing support

*"Thank you for the information you provided and for your visit which I found very reassuring and very helpful. In the past, I have always found health & safety visits rather overpowering and onerous but your visit was not like that at all."*
